

Luscious  
Little  
Blocks

- Make a template for the squares in the block center. Cut nine squares being certain to add seam allowances. Stitch the squares in three rows of three squares and then stitch the rows together.
- The four corners of the block can be foundation pieced in the stitching order noted on the pieces (many references can be reviewed for foundation directions). Stitch these units to the center squares to complete your block.

A kit is available for the piecing fabrics we have used in the sample, (while they last).  
Send \$2.00 and a SASE to receive yours!
